Date of Acquisition .....

## CHANGE OF ADDRESS/OWNERSHIP

GMH requests that owners who change their address (or name) or subsequent owners who purchase this vehicle, complete one of the forms on the opposite page and return by mail to:

The Manager — Warranty Administration,
Service Department,
General Motors-Holden's Sales Pty. Limited,
Box 548D, G.P.O.,,
Melbourne,
Victoria, 3001.

This notification is important even after the expiration of the original vehicle warranty in order that GMH will be able to contact you should the need arise.

Thankyou for your assistance.

**GENERAL MOTORS-HOLDEN'S SALES PTY. LIMITED**
(Incorporated in Victoria)

# *NEW VEHICLE WARRANTY*

GENERAL MOTORS-HOLDEN'S SALES PTY. LTD. HEREBY WARRANTS THAT IT WILL MAKE GOOD, WITHOUT CHARGE, ANY DEFECT WHICH APPEARS IN THE VEHICLE IDENTIFIED IN THE VEHICLE IDENTIFICATION CERTIFICATE FOUND ON THE INSIDE OF THE FRONT COVER. •••••

*Provided*

1. the defect has been notified to an authorised GMH Dealer or Service Dealer:
   (a) before the vehicle has travelled a distance of 20,000 km, or:
   (b) within 12 months of the date of delivery of the vehicle to the first retail purchaser (or in the case of a Demonstrator vehicle within 12 months of the date when it was first placed into service by the Dealer) whichever comes first, and

2. The vehicle has been returned to an authorised GMH Dealer Service Dealer

*And*

3. the Dealer has determined that the defect complained of is one of material or workmanship and is not caused by:
   (a) misuse or abuse of the vehicle such as by racing, rallying, overloading, etc. or by neglect
   (b) operation of the vehicle after it is known to be defective
   (c) accident or deliberate act
   (d) atmospheric fallout or flood, hail, salt, etc.
   (e) failure to carry out proper maintenance service
   (f) alteration or modification of the vehicle
   (g) the fitting of parts or accessories not marketed by GMH
   (h) any work carried out on the vehicle by someone other than an authorised GMH Dealer or Service Dealer.

# *NEW VEHICLE WARRANTY (continued)*

••••• BY THE DEALER (or as otherwise decided by GMH Sales) MAKING GOOD THE DEFECT BY REPAIR OR, AT THE OPTION OF GMH SALES, BY REPLACEMENT.

*Excluded from this Warranty are*

- defects in tyres (these being warranted by their manufacturers), and services such as engine tuning, brake adjustment, replacement of air and oil filters, etc. which are required as part of normal vehicle maintenance.

This Warranty applies only to vehicles operated in Australia and is given to the person who is entitled to possession of the vehicle whether as owner, lessee or otherwise and is given in addition to all rights conferred by law on that person.

Owners of vehicles operated outside Australia should consult their local dealer regarding the warranty applicable to their vehicles.

# CUSTOMER ASSISTANCE

We want you to be happy with your new vehicle and with the people you deal with while you have the vehicle.

Normally, any problems which may arise with the sales transaction, operation or servicing of your vehicle will be handled by your Dealer's Sales and Service department.

We realise however that, with the best intentions, misunderstandings do occur sometimes.

If you have a problem that has not been settled to your satisfaction here's what to do:

## Step 1:

Discuss the problem with one of the Dealer's management people. If you feel you haven't got satisfaction from the Sales Manager or Service Manager — go to the General Manager or the Dealer himself.

## Step 2:

If it seems that no-one at the dealership can help fully, write to the GMH Zone Owner Relations Manager in your State outlining your problem and including your name, address and telephone number; the vehicle model and vehicle chassis serial number ; date of purchase, current odometer reading and the Dealer's name and address. Some of this information will be on your Vehicle identification Certificate (inside the front cover of this book.)

## Step 3:

By now you should have satisfaction. If not, you can write to the GMH National Owner Relations Manager, GMH Sales Pty Ltd, P.O. Box 548D, Melbourne 3001.

# OWNER'S RESPONSIBILITY

## MAINTENANCE SERVICES ARE THE OWNER'S RESPONSIBILITY:

It is the owner's responsibility to ensure that all the scheduled maintenance services specified on the coupons in this book are carried out at the recommended intervals. The owner should also retain evidence that these services have been performed. *It is important to note that any claims made during the warranty period will not qualify under the terms of the New Vehicle Warranty if resulting from failure to carry out proper maintenance services. We therefore strongly recommend that your vehicle be serviced by an Authorised GMH Dealer or Service Dealer. These dealerships are equipped with facilities, trained personnel and General Motors parts to service and maintain your vehicle to factory recommendations.

## ROUTINE 'IN BETWEEN SERVICES' CHECKS:

It is also the owner's responsibility to ensure that the following items are checked daily/weekly according to the instruction given in the owner's manual.

— Engine Oil Level
— Cooling System Level
— Water Pump Drive Belt Tension
— Brake Master Cylinder Fluid Level
— Windshield Washer Fluid Level
— Battery Electrolyte Level
— Tyre Pressures
— Tyre Condition — Wear

# EXTRA SERVICING REQUIREMENTS:

If your vehicle is driven under any of the extreme conditions listed below, it is essential that some items be serviced more frequently than the intervals specified in the Maintenance Schedule.

As a general guide, extreme operating can be described as that where a vehicle operates continually for a period of 1 month or 1500 km's under any of the extreme conditions listed below.

## EXTREME CONDITION

1. Dust, dirt, loose road metal
2. Muddy and wet areas
3. Repeated short trips in very cold weather
4. Engine stop-start, excessive idling or low. . speed operation as experienced in some inner city driving.

## ITEMS REQUIRING EXTRA SERVICING.

| EXTREME CONDITION No. | Items requiring extra servicing |
|---|---|
| 1-3-4 | Engine Oil |
| 1 | Engine Oil Filter |
| 1 | Engine Air Cleaner Element |
| 1-2 | All Suspension and Steering Components and Driveshafts |
| 1-2 | Brake, Clutch and Fuel Lines, Exhaust System. |
| 1-2-4 | Rear Drum Brakes |

If at any time it is considered that the above items or other items should be more frequently serviced due to the type of operation or before a long trip, discuss the situation with the Service Manager of your GMH Dealer.

# MAINTENANCE SERVICE COUPONS

The remainder of this book contains a separate coupon for each of the scheduled maintenance services recommended for vehicles operating under normal conditions. Printed on each coupon is a list of all the items requiring attention for that particular service. As each service is performed and the coupon removed, the following service coupon is readily visible to remind you when the next service is due.

Service Coupons provided in this handbook range from the Pre-Delivery Service on your new vehicle right through to the 120,000 km (72 month) service. The sequence of services is as follows:

- Pre Delivery Service
- 1,000 km or 1 month
- 10,000 km or 6 months
- 20,000 km or 12 months
- 30,000 km or 18 months
- 40,000 km or 24 months
- 50,000 km or 30 months
- 60,000 km or 36 months
- 70,000 km or 42 months
- 80,000 km or 48 months
- 90,000 km or 54 months
- 100,000 km or 60 months
- 110,000 km or 66 months
- 120,000 km or 72 months

The one month or 1,000 kilometres service will be performed without cost for labour by the Selling Dealer.

This service may be carried out by another GMH Dealer provided you have a letter of introduction from the Selling Dealer. Your Dealer will supply the necessary letter of introduction upon request.

## What the Owner Should Do

When service, according to the time or distance interval, is due, the owner should present this service coupon book to a GMH Dealer as an authority to have the items listed attended to.

After the service is completed, the owner should see that the Validation Record is stamped and signed by the Dealer. This is important as it will not only assist in the determination of Warranty Claims, but enhance the value of the vehicle whenever resale is contemplated.

## What The Servicing Dealer Has To Do

Your Service Dealer must attend to all items listed for the particular service and must see that the Validation Record is signed.

All operations listed on the Service Coupons should be carried out following the procedures set out in the appropriate current service literature.

**New Vehicle Preparation Validation**

Your new vehicle has been inspected and prepared for delivery by your Dealer, in accordance with the manufacturer's New Vehicle Pre-Delivery Procedures.

Service Manager's Signature .....

Date .....

# PREDELIVERY OPERATIONS

## UNDERHOOD OPERATIONS

| | |
|---|---|
| | Check coolant level in recovery reservoir and radiator. Top up as required with specified coolant. Inspect cooling system for leaks. |
| | Check engine oil level. |
| | Check brake master cylinder fluid level. Inspect for leaks. |
| | Check battery electrolyte level. Check battery terminals for tightness and that battery is firmly secured. |
| | Air cleaner – set air intake control lever to correct temperature setting. |
| | Check fluid level in windshield washer tank. |
| | Check the water pump drive belt tension. |
| | Check all fuel lines & carburettor for leakage. |
| | Check the exhaust system for exhaust gas leaks. |
| | Check engine idle speed. Adjust if necessary. |
| | Check ignition timing. |
| | Check condition, routing & attachment of all wiring, hoses & pipes in engine compartment. |

## UNDERBODY OPERATIONS

| | |
|---|---|
| | Check steering system for damaged, leaking or loose components. Check tightness of all fasteners. |
| | Check front and rear suspension for damaged, leaking or loose components. Check tightness of all fasteners. |
| | Check oil level in transmission, transfer case and differential. Check for leaks. |
| | Check tightness of propeller shaft flange mounting bolts. |
| | Check brake lines, hoses and connections for leaks, damage and security. |

## UNDERBODY OPERATIONS Continued

| | |
|---|---|
| | Check fuel and vapour lines, hoses and connections for leaks, damage and security. |
| | Check exhaust system for leakage, alignment and security. |
| | Inspect condition of tyres and set to recommended pressure. |
| | Check wheel nuts, hub nuts and drive shaft nuts are tightened to specified torque. |

## INTERIOR OPERATIONS

| | |
|---|---|
| | Check condition and attachment of rear view mirror. |
| | Check steering wheel play and operation of steering lock. |
| | Check that all floor pedals operate smoothly. Check clutch pedal freeplay and brake pedal travel are within specification. |
| | Check parking brake travel is within specification. |
| | Check seats are installed securely. Check seat operating mechanisms. |
| | Inspect seat belts for condition of webbing and operation of buckle and retractor mechanism. Check mounting bolts for tightness. |
| | Check operation of all lights. (Interior, intruments, warning, and exterior) |
| | Check operation of all vehicle controls including door, rear compartment and window mechanisms, windscreen wiper and washers, horn, radio, hood lock and catch. |
| | Check operation of heating and ventilation system including operation of blower. |
| | Check tool, jack and spare wheel stowage. |
| | Clean vehicle interior thoroughly. |

## EXTERIOR OPERATIONS

| | |
|---|---|
| | Check engine hood for alignment to body. Check operation of hood lock safety catch. |
| | Check door lock operation with key. |
| | Check rear view mirrors for condition and attachment. |
| | Check headlight aim. |
| | Install spare wheel carrier and fit spare wheel (where applicable) |
| | Wash vehicle, check paintwork, brush touch up and minor repairs as necessary. |

## ROAD TEST

| | |
|---|---|
| | Road test vehicle to check operation of brakes, steering, engine, clutch and transmission. |
| | Check that the body, wheels and power-train are free from abnormal noise and vibration. |
| | Check all instruments and warning lights are functioning properly. |
| | Check seat belt emergency locking mechanism is functioning properly. |

## Delivery Certificate

The dealer has completed the vehicle identification certificate, and has explained to the purchaser the terms and conditions of the General Motors-Holden's Sales Pty. Ltd., new vehicle warranty and notices and the contents of the owner's handbook. The dealer has informed the purchaser of his responsibility in respect of vehicle maintenance.

The dealer has demonstrated to the purchaser the operation of the vehicle and of all options and accessories.

The purchaser has been informed in writing of the fitting of any and all equipment or accessories not marketed by GMH or an affiliated company, and of any alterations or modifications which have been made to the vehicle and the effect on the GMH sales new vehicle warranty of such fitting, alteration or modification.

The purchaser has inspected the vehicle and acknowledges its delivery in accordance with this delivery procedure.

| | Change engine oil. |
| | Inspect cooling system hoses and connections for leakage, damage & tightness. |
| | Inspect exhaust system for leakage, damage & security. |

## IGNITION SYSTEM

| | |
|---|---|
| | Inspect condition of distributor cap and rotor. Clean inside of cap. |
| | Check condition and resistance of all high tension leads. |
| | Replace spark plugs. |
| | Check ignition timing. |
| | Check operation of distributor advance mechanisms. |

## FUEL SYSTEM

| | |
|---|---|
| | Check condition of air cleaner element. Clean or replace as necessary. |
| | Check operation of choke mechanism & lubricate shaft. |
| | Check engine idle speed. Adjust if necessary. |

## EMISSION CONTROL SYSTEM

| | |
|---|---|
| | Check crankcase ventilation hoses and P.C.V. hoses for condition, leakage and security. |
| | Fuel vapour storage system: Inspect all hoses and connections. Check air flow through charcoal canister ports. |

## ELECTRICAL

| | |
|---|---|
| | Inspect all electrical wiring in engine compartment for condition and attachment. |
| | Check operation of all lights. |

## CHASSIS AND BODY

| | |
|---|---|
| | Check clutch pedal height and freeplay. |
| | Check front disc brake pads and discs for wear or damage. |
| | Check rear brake drums and linings for wear or damage. |
| | Check all brake hoses, pipes and connections for leakage, damage & security. |
| | Check parking brake for correct operation and travel. Inspect cable for damage. |
| | Inspect tyres and wheels for wear or damage. Check inflation pressures. Torque wheel nuts. |
| | Check front and rear wheel bearings for wear, damage and adjustment. |
| | Check operation of automatic free wheeling hubs. |
| | Inspect shock absorbers for leakage or damage and inspect condition of anchorages. |

P.T.O.

# 60 Month or 100,000 km continued

## CHASSIS AND BODY Continued

| | |
|---|---|
| | Lubricate propeller shaft.<br>Check universal joint for wear.<br>Check tightness of propeller shaft flange bolts. |
| | Check oil level in transmission, transfer case and differential. |
| | Replace front axle spherical joint oil seal (left & right). Applies to vehicles operating under extreme conditions. |
| | Check all suspension parts for wear or damage.<br>Check tightness of all fasteners. |
| | Check steering wheel play. |
| | Check complete steering system for signs of leakage, wear, damage or looseness.<br>Rectify as required. |
| | Check and adjust toe in. |

## ROAD TEST

| | |
|---|---|
| | Check braking performance, steering operation, engine response and driveability, clutch and gearshift operation. |
| | Check that body, wheels and power-train are free from abnormal noise and vibration. |
| | Check all instruments and warning lights are functioning properly. |
| | Check seat belt emergency locking mechanism is functioning properly. |

## SERVICE COUPON — 66 Month or 110,000 km

### ENGINE

| | |
|---|---|
| | Check condition & tension of water pump drive belt. Replace or retension as necessary. |
| | Change oil filter. |
| | Change engine oil. |
| | Inspect exhaust system for leakage, damage and security. |

### IGNITION SYSTEM

| | |
|---|---|
| | Replace spark plugs. |
| | Check ignition timing. |

### FUEL SYSTEM

| | |
|---|---|
| | Check condition of air cleaner element. Clean or replace as necessary. |
| | Check operation of choke mechanism and lubricate shaft. |

### ELECTRICAL

| | |
|---|---|
| | Check operation of all lights. |

### CHASSIS AND BODY

| | |
|---|---|
| | Check clutch pedal height and freeplay. |
| | Check front disc brake pads and discs for wear or damage. |
| | Check rear brake drums and linings for wear or damage. |
| | Check all brake hoses, pipes & connections for leakage, damage & security. |

### CHASSIS AND BODY Continued

| | |
|---|---|
| | Check parking brake for correct operation and travel. Inspect cable for damage. |
| | Inspect tyres and wheels for wear or damage. Check inflation pressures. Torque wheel nuts. |
| | Check front and rear wheel bearings for wear, damage and adjustment. |
| | Check operation of automatic free wheeling hubs. |
| | Inspect shock absorbers for leakage or damage and inspect condition of anchorages. |
| | Check oil level in transmission, transfer case and differential. |
| | Replace front axle spherical joint oil seal (left & right). Applies to vehicles operating under extreme conditions. |
| | Check steering wheel play. |
| | Check complete steering system for signs of leakage, wear, damage or looseness. Rectify as required. |

### ROAD TEST

| | |
|---|---|
| | Check braking performance, steering operation, engine response and driveability, clutch and gearshift operation. |
| | Check that body, wheels and power-train are free from abnormal noise and vibration. |
| | Check all instruments and warning lights are functioning properly. |
| | Check seat belt emergency locking mechanism is functioning properly. |

## SERVICE COUPON

# 72 Month or 120,000 km

### ENGINE

| | |
|---|---|
| | Check condition & tension of water pump drive belt. Replace or retension as necessary. |
| | Check engine valve clearances. Adjust if necessary. |
| | Check torque of all cylinder head bolts and manifold fixings. |
| | Change oil filter. |
| | Change engine oil. |
| | Inspect cooling system hoses and connections for leakage, damage & tightness. |
| | Replace engine coolant. |
| | Inspect exhaust system for leakage, damage & security. |

### IGNITION SYSTEM

| | |
|---|---|
| | Inspect condition of distributor cap and rotor. Clean inside of cap. |
| | Check condition and resistance of all high tension leads. |
| | Replace spark plugs. |
| | Check ignition timing. |
| | Check operation of distributor advance mechanisms. |

### FUEL SYSTEM

| | |
|---|---|
| | Replace air cleaner element if not already replaced in previous 24/40 period. |
| | Check operation of choke mechanism & lubricate shaft. |
| | Inspect fuel tank, lines and connections for leakage, damage and tightness. Inspect condition of fuel tank cap gasket. |
| | Replace fuel filter. |
| | Check engine idle speed. Adjust if necessary. |

### EMISSION CONTROL SYSTEM

| | |
|---|---|
| | Check crankcase ventilation hoses and P.C.V. hoses for condition, leakage and security. |
| | Check operation of P.C.V. valve. |
| | Fuel vapour storage system: Inspect all hoses and connections. Check air flow through charcoal canister ports. |

### ELECTRICAL

| | |
|---|---|
| | Inspect all electrical wiring in engine compartment for condition and attachment. |
| | Check operation of all lights. |
